

Family Enrichment
Safety plan- COVID 19

Our goal is to make the offices of Family Enrichment as safe as possible for you and our staff. To that end, we will be practicing the following:

Limited staff seeing clients at one time
No use of the waiting room
Scheduling clients at staggered times
Therapists spraying offices between client appointments
Therapists escorting clients through the common areas to their offices
Therapists wearing masks in the common areas
Hand sanitizer and disinfectant wipes being available
Our staff not entering the office if they have symptoms, have tested positive for COVID 19 or been exposed to someone who has tested positive

We ask that you:

Remain in your car until your therapist texts you that it is safe to come in
Wear a mask as you move through the common area
Do not keep an in-person appointment if you have symptoms, have tested positive or have been exposed to someone who has tested positive
Agree to answer your therapist's questions about your health

To minimize contact, we will not have central office staff present. Your therapist will schedule your next appointment. Payments can be made to your therapist, through the mail or through our web site.

To limit exposed surfaces, we will be using two bathrooms, both can be used by either females or males. Disinfectant wipes and other disinfectant materials will be available in the bathrooms.

None of us can guarantee complete safety. We believe that the measures we are taking and those we are asking you to take will provide some protection.

By signing below, you are agreeing to abide by these guidelines and understand both the protections and limitations they provide.
